/ APPLICATIONS

>> ECHO

> A social networking application connecting users based on their opinions by filtering them into different comment threads and sparking like-minded conversation.

> Utilized a Vue.Js front-end with an Express and Node.Js server. Mongoose as an ORM and MongoDB as a database. Auth0 was implemented for user roles, and Firbase was utilized for blob storage.

>> KEEPR

> A Pinterest inspired social network that allows users to visually share, and discover new interests by 'keeping' images or videos to their own or others' collections and browsing what other users have kept.

> Built using Vue front-end with a Node.Js server. Dapper for a ORM and MySQL as a database. Auth0 was implemented for user management.
